INDÚSTRIA BRASILEIRA DE DESIGN

The precision behind the form

Furniture engineering
& manufacturing

EMBU DAS ARTES, SÃO PAULO
COMPANY PROFILE / 2026

Every project is born twice

The second time is on the factory floor

We give physical form to a designer’s intention. Engineering, material knowledge and craftsmanship guide every decision.

Brazilian craft. Industrial precision

Indesign and WV Design bring together fine furniture manufacturing, joinery and carpentry in Embu das Artes, São Paulo.

WV Design carries the manufacturing history. Indesign carries it forward through new collections and collaborations.

3,800
m² of manufacturing space

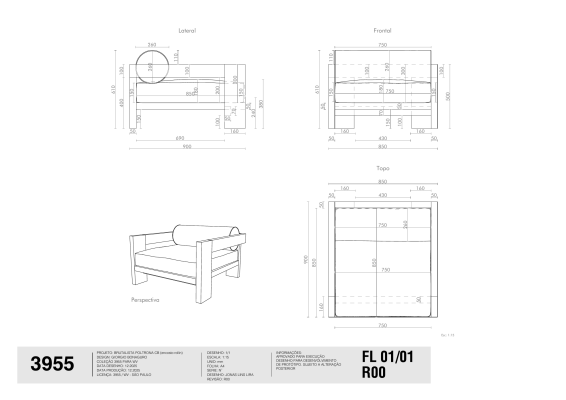

90
pieces developed in two years

3,000+
size and finish variations

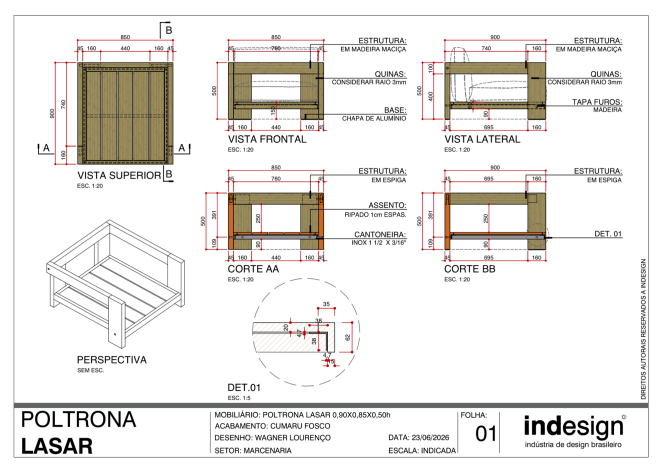

10+
studios and designers

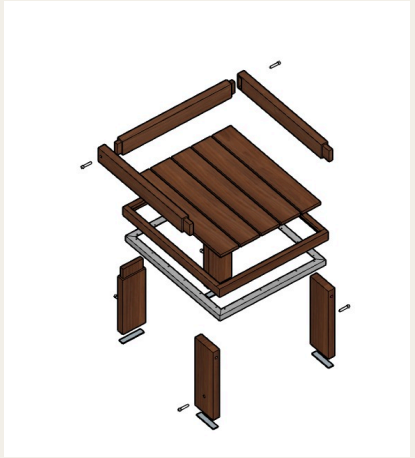

The drawing, resolved

01 DESIGN INTENT

02 TECHNICAL DEVELOPMENT

03 PROTOTYPE

Lasar armchair. Giorgio Bonaguro for 3955 Editora de Design.

Structure, joints and tolerances become dimensioned shop drawings before the physical prototype.

The character of the material

Wood & veneer

Lacquer

Stone

Antigua table

Fahrer

Jangada table

Pedro Useche / Vermeil

Disco table

New forms. The same rigor

A sideboard with turntable and wine storage. New table families and armchairs under development.

DESIGN VISUALIZATIONS / 2026

The complete process, under one roof

In-house engineering

Structure, joints and tolerances resolved with the designer.

Integrated manufacturing

Kiln drying, metalwork, machining, assembly, painting and polishing.

Approval before production

A physical prototype to validate form, comfort and finish.

Consistency across variations

Size and finish options developed with the same care.

indesign

Let’s make your next piece

A technical brief. A prototype. A shared standard.
